Sally Willoughby, an amazing and inspirational presenter will with masterful clarity reveal the Rotary Club of Mobilong's International Project, Vision of Islands. This project supports the non-profit volunteer eye surgical & clinical team, led by Dr John Willoughby OAM, facilitating free-of-charge cataract removal. This restores sight for South Pacific Islanders who otherwise would needlessly become blind. Sally will share incredible insights into confronting challenges where mobile facilities strive to reach remote clinics. Discover how this vision is making it possible to train local medical staff and enlighten Registrar trainees from Australasia to humanitarian care & advanced pathology!
